PaY

PaY is modeled after Youth in Philanthropy (YiP), an initiative of The Winnipeg Foundation, and each year we build upon that partnership and start new initiatives of our own. In its 17th year, 20 area high schools received \$6,000 to use for grantmaking in the community - totaling 137 grants to 89 organizations.

Run as an extracurricular activity in schools, student-led committees first identify areas of focus, then research community nonprofits and visit organizations before deciding how to award the grant funds.

The vision for PaY is to inspire, lead, and share. In addition to grantmaking, participating schools explore this vision through their own special projects.

"Our goal is to help you reach your goals."

Philanthropy:  Forward

The logo for 'Forward' features the word 'Forward' in a black, cursive font. The letter 'O' is replaced by a circular graphic composed of many small, colorful squares in shades of blue, green, and yellow.

Launched in 2013, Philanthropy: Forward is a unique opportunity for PaY Alumni to join a community of adults passionate about making a difference in their collegiate and professional careers. Forward members engage in programming to advance their knowledge and experiences in the philanthropic sector while remaining involved with The Barry Foundation.

Throughout the year, Forward hosts educational and social events to reconnect with fellow PaY Alumni; scholarship opportunities are available for those who participate in these activities.

PaY Summer Internship Program

In 2009, The Barry Foundation established the PaY Summer Internship Program designed to build on the nonprofit experience students receive in Philanthropy and Youth (PaY). Through these internships, students gain meaningful summer employment and learn about all facets of a nonprofit's operations while local organizations increase their capacity.

PaY Summer Internship grants are provided through a competitive process to nonprofit organizations in the Fargo-Moorhead and Minnesota lakes regions. Each recipient organization is matched with a PaY student who is hired to work on a special project designed by the organization. Throughout the summer, mentoring guidance is provided to the student by both the host organizations and The Barry Foundation.

Starting in 2010, community partners have furthered the growth of the PaY Internship Program by providing funding for additional internship grants. This has increased the capacity of the program and made a direct impact on our community members.

Paused between 2020-2022, the Foundation relaunched this impactful program in the summer of 2023.

PaY Leadership Day

On July 15th, PaY Summer Interns, Mentors, and Core Team members traveled to the MN Lakes area and Castaway Club on Pelican Lake for a day of leadership development and relationship building.

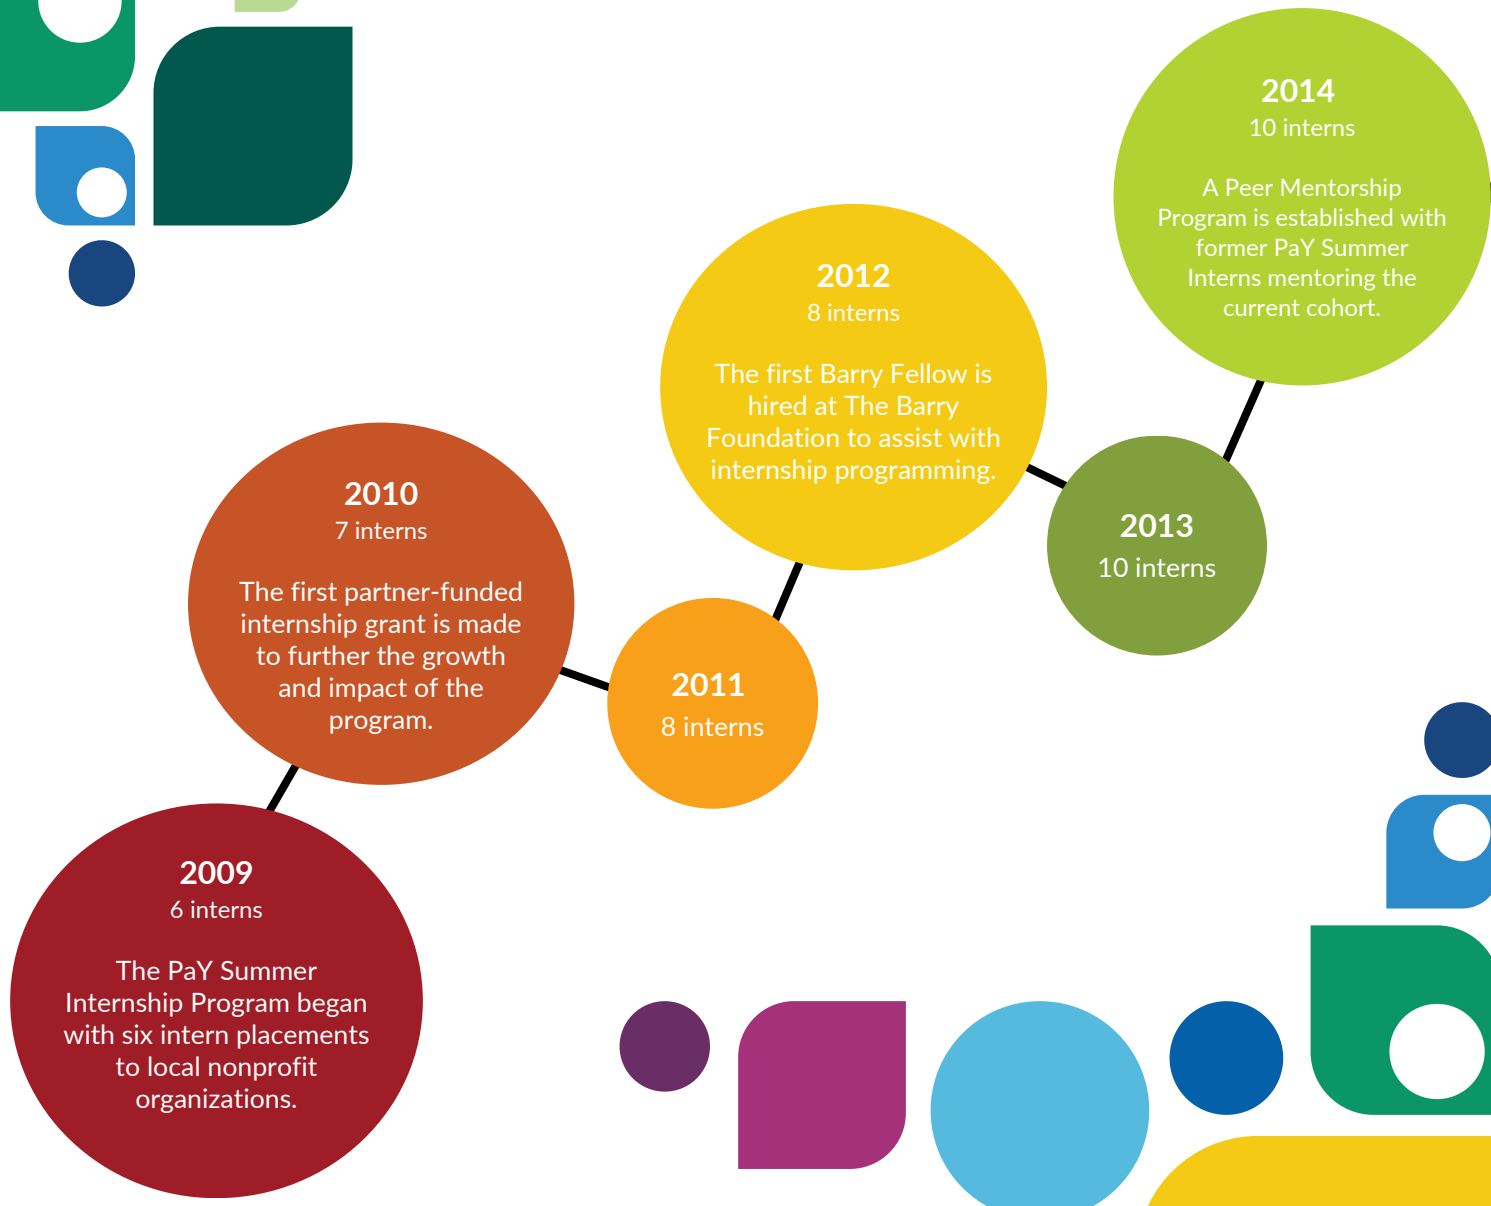

Project 412 hosted a site visit to share more about the Trolls of Detroit Lakes project and other creative initiatives in the area.

"Kimberly's energy and eagerness to dig into her special project at the YMCA was palatable every day throughout her internship. She stepped out of her comfort zone and set up multiple meetings with our organization's leadership, set up our software platform for volunteers from ground zero. Whatever we asked of Kimberly, she delivered with a smile. She's smart, and thoughtful. She asked questions, built relationships with staff and encouraged us to expand our viewpoint of how to utilize volunteers inside the YMCA. As a result, I am confident that for years to come we will be a better stronger community organization because of her efforts and her work with us."
